Project description:
The proposed Action is designed to create a conducive environment for CSOs to engage meaningfully in policy development and reform, in close coordination with the MIA, aiming to advance themes covered under Chapter 24 of the EU acquis. Through structured policy dialogue mechanisms, CSOs will have a more systematic role in reviewing MIA-led initiatives, producing policy recommendations, formulating evidence-based policy recommendations, and contributing to a rights-based, inclusive reform process.

Expected results:
Civil society organizations (CSOs) in the Republic of Moldova will have strengthened capacities, enhanced thematic expertise, and functional mechanisms for collaboration with public authorities in the fields of internal affairs, security, and migration. Through active and qualified engagement in reform processes, CSOs will contribute to the establishment of a more transparent and inclusive institutional framework, aligned with the requirements of Chapter 24 of the EU acquis. The intervention will foster increased civic participation, evidence-based public policy development, and effective monitoring of progress within the European integration process.
