**Descrierea proiectului:**

This project's overall objective is to build a better connected and more resilient civil society across the Eastern Partnership region — one that is ready and able to participate in the democratization, reform and recovery processes in their countries, thus fostering more inclusive, resilient and democratic societies.

Through the Centre's tested support methodology - flexible grant-making, CSO-led capacity-building and an integrated pan-regional approach - this project combines substantial financial support to third parties (FSTP) with comprehensive, innovative and targeted capacity-building interventions to help CSOs become drivers of change, advocate for their constituencies, network across the EaP+ region, root themselves within their communities, and become more financially sustainable.

Rezultate așteptate:

A better connected and more resilient civil society, ready and able to participate in the democratisation, reform and recovery processes, resulting in more inclusive, resilient and democratic societies in the Eastern Partnership region.
