youtube.com/c/openmediahubcom

Website(s):   openmediahub.com/

Project description:
This Project aims at creating a virtual media hub (www.openmediahub.com) spanning the two regions, in order to
contribute to the development of independent media and to a more accurate presentation of EU policies in the
Neighbourhood regions, through the creation of a network of journalists. The OPEN Media Hub provides skills to
journalists and media managers through the fostering of professional networks, the provision of hands-on workshops, of
journalist exchanges and support to audio-visual and online production.

Expected results:

- Provide journalists in the Neighbourhood countries with skills that help to improve independent and objective reporting.
- Provide Neighbourhood editorial and management staff with skills needed to run independent media outlets.
- Reinforce a network of Neighbourhood journalists and media professionals that is actively used as a professional
resource and networking platform.
