Descrierea proiectului:

PPRD East 4 represents the fourth phase of the EU’s flagship programme supporting the Eastern Partnership countries in strengthening their Disaster Risk Management (DRM) systems and enhancing cooperation with the Union Civil Protection Mechanism (UCPM). This phase builds on the substantial results achieved in PPRD East 3 and focuses on replicability, sustainability and national ownership, while advancing the approximation of partner countries to the EU acquis communitaire in civil protection and disaster risk management, in line with the EU Disaster Resilience Goals and the EU Preparedness Union Strategy.

Rezultate așteptate:

1. Emergency preparedness plans and standardised operational procedures tested through simulation in pilot areas, with revitalised cross-border coordination; enhanced early warning strategies; institutionalised volunteerism and improved inter-agency coordination.
2. Peer exchanges and workshops foster mutual learning and regional cooperation through peer exchanges and workshops; participation in forums (Civil Protection and Humanitarian Forums).
3. Enhanced cross-border and sub-regional cooperation among Eastern Partnership countries, including transboundary risk assessment and response with the design and implementation of a regional full-scale exercise.
