Project description:

The programme addresses critical data gaps on the socio-economic vulnerabilities of Roma in Georgia, Moldova, and Ukraine.

The World Bank provides technical assistance in the framework of the Trust Fund with the specific objective of generating, analyzing and disseminating evidence on equality, inclusion and participation among marginalized Roma communities in Georgia, Moldova and Ukraine, and promoting evidence-based policies. Activities under this Agreement are expected to complement the activities related to performing the regional Roma survey in Georgia, Moldova and Ukraine to be carried out by the United Nations Development Programme (UNDP).

Expected results:

1. Support provided to the design of the quantitative Regional Roma Survey in the Target Countries.
2. Qualitative research and desk reviews have been conducted and up to three deep dive reports produced
3. Quantitative and qualitative survey data have been analyzed and diagnostics and knowledge materials developed
4. Quantitative and qualitative knowledge products and policy recommendation has been disseminated
