Project description:

The main objective of the project is to support the implementation of the sustainable reform of the justice sector in Moldova and to increase the efficiency of the judiciary and other agencies in the justice sector.

Expected results:

- The justice system is more sensitive towards infringements of its new own ethical standards.
- The efforts in bringing the judiciary closer to the values of the European Union to result in a new code of ethics, a new training concept in this field and an ethics committee, which will advise judges on ethical questions.
- The administration of justice and quality of the justice act is increased through several measures like for example the specialisation of judges in pilots courts and contribution to a new version of ICMS, the "Integrated Case Management Software".
- The judiciary to develop with ATRECO help its own communication strategy and a network of communicators for its implementation.
- Public relations with citizens and mass media to strengthen and a system for constant customer feedback to be sent up.
- The Agency for Court Administration to be able to produce needs steered planned for new court infrastructure in line with best international practices.
