Project description:

The project aims to build new partnerships between CSOs-PAs to design/re-design community-based social services for vulnerable population (focus on laundry, hygiene and socialization). At the same time, the project will increase capacities of CSOs to develop and provide inclusive laundry, personal hygiene and socialisation services to vulnerable groups, develop sustainable and inclusive social services.

The communication and visibility actions will increase credibility of the population in CSOs role for social services delivery with EU support for social cohesion, and wellbeing of vulnerable people.

Expected results:

- At least 15 CSOs received financial support for the development and provision of community-based social services;
- At least 15 new partnerships between CSOs and PAs have been established in order to deliver sustainable and inclusive laundry services in local communities;
- At least 15 community-based services provided inclusive laundry, personal hygiene and socialisation services to vulnerable groups of population.

Finally, an estimative number of 1.500 of persons from vulnerable groups is expected to benefit from laundry services developed within the action.
