Project description:

The cyber defence component of the EPF assistance measure will strengthen the cybersecurity capabilities and resilience of the Ministry of Defence and Moldovan Armed Forces. The measure is provided through two projects. The projects aim to increase the ability of the Moldovan Armed Forces and the Ministry of Defence to detect intrusion to the information systems and to counter cyber-attacks. Two projects with a total cost of EUR 4 million are implemented by the e-Governance Academy.

Expected results:

Projects outcomes will be the strengthened cybersecurity capabilities and resilience of the Ministry of Defence and Moldovan Armed Forces and improved network infrastructure.
