Project description:
The EU4Border Security Moldova project supports the efforts of Moldovan national authorities to strengthen border and migration management in line with the Schengen and EU acquis and EU Member States' best practices. Funded by the European Union, the project works closely with the Ministry of Internal Affairs and other key institutions to improve Moldova's ability to manage its borders, prevent cross-border crime, and respond to growing security challenges, especially in the context of Russia's war of aggression against Ukraine.

The project aims to align Moldova's border and migration systems with EU standards, strengthen national capacity to combat cross-border crime, and modernise and digitalise institutional frameworks and operational procedures. It will support legal, institutional, and operational reforms, reinforce the capabilities of law enforcement agencies, and promote inter-agency cooperation through improved systems, tools, and training.

Key stakeholders involved in the implementation of the project include the Ministry of Internal Affairs and its subordinated structures, the General Border Police Inspectorate (IGPF), the General Carabineer Inspectorate (IGC), the General Inspectorate for Migration, the Academy of Police "Stefan cel Mare", and the Customs Service under the Ministry of Finance. The final beneficiaries of the action are Moldovan citizens and the population residing in the territory of Moldova,
