Site-ul proiectului: keystonemoldova.md/en/projects/inclusive-moldova-communities-for-all/**Descrierea proiectului:**

The “Inclusive Moldova: Communities for All” project aims to provide people with disabilities, including adults placed in Bădiceni Residential Institution, with increased access to community living. It will lay the groundwork for a coordinated deinstitutionalisation mechanism enabling safe and supported transition of people with disabilities currently living in residential care to community- and family-based care. The project’s activities will encourage stronger civil society contribution to the deinstitutionalisation process and will foster better accountability and collaboration with public authorities. To ensure improved protection and well-being for people with disabilities, the initiative will consolidate resources, tools, methodologies, and human competencies at national, regional, and local levels. All of this will promote full social inclusion of deinstitutionalised adults with disabilities and will help shape communities so that they meet the needs of all inhabitants. The project’s sub-granting programme will empower civil society organizations to develop community-based social services for people with disabilities in partnership with Territorial Agencies of Social Assistance. With joint efforts, increased readiness to include people with disabilities as equal community members will become more realistic across the country.

Rezultate așteptate:

By its completion, the “Inclusive Moldova: Communities for All” project aims to achieve the following results:

- 1) Consolidated Plan on DI and social inclusion of people with disabilities from the Bădiceni RI developed and approved, including 12 regional plans on DI and social inclusion developed.
- 2) Comprehensive assessment conducted and individualised assistance plans drafted for 300 people with disabilities from the Bădiceni RI, and a digital database comprising the beneficiaries’ profiles developed.
- 3) 120 adults with disabilities deinstitutionalised and provided with a program for independent living and self-determination.
- 4) 15 grants efficiently managed and implemented by civil society organizations, in partnership with Territorial Agencies of Social Assistance and social assistance units in Chișinău municipality and the autonomous territorial unit of Gagauzia.
- 5) 32 social services created and developed for people with disabilities who have been deinstitutionalised.
