

## Lead IFI Remuneration for the Project "Moldelectrica Power Transmission Network Rehabilitation"

**Срок реализации:** 11.12.2014 - 09.10.2019

**Страны Восточного партнерства:**  
Moldova

**Внесок ЕС:** € 200 000

**Партнеры по реализации и / или**  
EUROPEAN BANK FOR RECONSTRUCTION AND  
DEVELOPMENT (EBRD)

**Веб-сайт:**

**Описание:**

The aim of the project is to rehabilitate the existing internal power transmission network of Moldelectrica, the state owned Moldovan transmission system operator, in order to strengthen regional interconnections and to develop trade in regional electricity.

**Ожидаемые результаты:**

- Improved security in the transmission network and energy efficiency.
- The replacement of the existing fleet of transformers to lead to an efficiency gain of about 30%, reducing CO2 emissions by about 1 5,000 to 20,000 tones of CO2 per year.
