Project description:

The project is funded by the European Union with a four-year implementation period, from January 2019 until January 2023. Its overall objective is to support the Government of the Republic of Moldova to implement its reform Agenda; in particular, to assist in developing the capacities required for the implementation of the Association Agreement (AA), including the Deep and Comprehensive Free Trade Area (DCFTA), as well as to ensure the necessary follow-up for the post - visa liberalization stage.

In this overarching framework, the project supports the deployment and work of the EU High Level Advisers (HLAs) designated by the EU Delegation in Moldova. Currently, the EU High-Level Advisers' Mission consists of 9 Advisers in the following sectors:

Anti-Money Laundering; Anticorruption; Confidence Building Measures; Customs and Tax Policy (Domestic Revenue Mobilization); Education and Research; Energy; Financial Services; Internal Affairs and Police; Local Public Administration Reform, including Decentralization and Voluntary Amalgamation.

Expected results:

- Strengthened policy making at sector level, including both the strategic planning/policy design and the policy management capacities of the line Ministries and State Agencies.
- Enhanced knowledge and awareness of the European Union's policies, legislation and regulations.
- Advice provided so as to ensure the political, institutional and financial feasibility (hence, the effective implementation) of the planned reforms in these sectors.
