Project description:

The main objective of the project is to accompany the “Support to the Implementation of the DCFTA Process in Moldova Budget Support Sector Reform Contract (BS SRC)” which means to assist the Government of Moldova in promoting sustainable and inclusive growth and consolidating and improving democratic and economic governance.

Expected results:

- Improved institutional capacities at Central Public Administrations (CPAs) and implementing bodies/agencies to design and implement specific competitiveness enhancement measures within a DCFTA context.
- Improved cooperation between the relevant Moldovan-EC quality infrastructure and market surveillance services and bodies, at the forefront, with DG ENTR (Directorate C).
- Improvements of key competitiveness indicators/aspects within a DCFTA context, notably with respect to: a) Quality Infrastructure, b) Market Surveillance, c) the development and diversification of Moldovan internal and external market conditions and opportunities and d) the design and execution of extensive public awareness programmes that promote DCFTA benefits through public events targeting citizens, civil society representatives and businesses.
