

Upskilling digital competences and career management skills of disadvantaged youth in Georgia, Armenia and Moldova**Срок реализации:** 22.07.2023 - 22.01.2025**Страны Восточного партнерства:** Армения, Грузия, Молдова**Внесок ЕС:** € 283 857**Общий бюджет в евро:** € 315 537**Партнеры по реализации и / или софинансированию:** Charita Ceska Republika, Coalition for Independent Living, "Agate" Rights Defence Center for Women with Disabilities, Institutul de Instruire in Dezvoltare**Социальные сети:****Описание:**

The Action brings together partners from Georgia, Armenia, Moldova, and the Czech Republic to exchange practices and develops opportunities for disadvantaged youth for their employability and personal development including raising awareness, training, integrating digital career counseling into existing supported employment programs and stimulating digital entrepreneurship.

The Action will be implemented in Georgia (Adjara, Imereti, Samegrelo and Zemo Svaneti regions), Armenia (Shirak, Lori and Tavush regions), and Moldova (Chisinau, Cahul and Ungheni reg regions). The Action reaches out to young people in particular to those with fewer education and employment opportunities and engages them in the activities that will foster their participation in the labour markets and democratic life. Thanks to that, formal and non-formal structures and initiatives for career and digital skills development will be strengthened to provide quality and relevant services to disadvantaged youth. In addition, active participation of youth, including disadvantaged youth, in democratic and socio-economic life will increase.

Ожидаемые результаты:

As a direct result of the Action, at least 720 disadvantaged youth including young persons with disabilities and persons who are not in education, employment, or training will upskill their digital skills through enhanced digital career counseling services, development of digital competencies, and awareness raising and networking.

Moreover, 75 career advisors will improve their skills to deliver quality career counseling services to disadvantaged youth.

Moreover, at least 18 civil society organizations from three EaP countries will improve their competencies in the delivery of digital career counseling services and digital skills capacity-building trainings.
