Project description:
The Project supports the sustainable development of civil aviation in the Eastern Partnership and Central Asian countries. It aims at upgrading regulations and working practices to reach compliance with international standards in air safety and security, and for the Eastern Partnership countries, with the requirements of the Common Aviation Area Agreements (CAAA) being negotiated or signed with the EU.

Expected results:
- Training, peer-to-peer and on-the-spot support, as well as awareness raising.
- Dedicated initiatives on safety management and civil aviation administration management.
- Support to addressing safety findings raised by international audits.
- Support for the implementation of existing comprehensive aviation agreements, paving the way towards a Common Aviation Area.
- Support for the harmonisation of regulations and working practices with international safety and security standards.
- Workshops, mentoring and training activities on cargo and mail security.
- Aviation security audits and on-site evaluations on cargo and mail security.
