

Lead IFI Remuneration for the Project "Moldelectrica Power Transmission Network Rehabilitation"

Period of implementation: 11.12.2014 - 09.10.2019

EaP countries:

Moldova

EU contribution: € 200 000

Implementing organisation(s):

EUROPEAN BANK FOR RECONSTRUCTION AND
DEVELOPMENT (EBRD)

Project website:

Project description:

The aim of the project is to rehabilitate the existing internal power transmission network of Moldelectrica, the state owned Moldovan transmission system operator, in order to strengthen regional interconnections and to develop trade in regional electricity.

Expected results:

- Improved security in the transmission network and energy efficiency.
- The replacement of the existing fleet of transformers to lead to an efficiency gain of about 30%, reducing CO2 emissions by about 1 5,000 to 20,000 tones of C02 per year.
