Project description:

The project will connect young entrepreneurs from Romania, the Republic of Moldova and Ukraine, and help them to develop their capacity, as well as to support the establishment of a favorable ecosystem for social entrepreneurship in Moldova, Ukraine and Romania.

Expected results:

By implementing this project we aim to achieve the following results:

- At least one million people from the Republic of Moldova and the Odessa and Cernauti Regions of Ukraine will be informed about social entrepreneurship using creative and multimedia online platforms, traditional media and social networks.
- Four Social Innovation Labs will be established in Moldova and Ukraine aiming to offer specific information, professional capacity building and development for start-ups in the field of social entrepreneurship, for at least 1,500 people in the region, of which at least 90% are youth.
- Eight social enterprises by young people from Moldova and Ukraine will be incubated and implemented through the Cross-border "Social Impact Award" competition.
- Alliances created with civil society, local and national authorities, universities and business for the elaboration of public policies in the field of social entrepreneurship.
