GUVERNUL
REPUBLICII MOLDOVA

UNITATEA. CREDINȚA. CALITATE. PROFESIA. ÎMPREUNĂ
ȘI MONITORIZAREA PERFORMANȚELOR ÎN DOMENIUL ENERGIEI

MORE COMFORT, LOWER ENERGY COSTS, A CLEANER ENVIRONMENT

1,000,000 patients
10,000 medical staff

Up to **41%** lower energy consumption

Reduction of CO₂ emissions by **6,600 tons** annually

Approximately **€2.8 million** in annual savings

THESE RESULTS WILL BE ACHIEVED THROUGH RENOVATION AND ENERGY EFFICIENCY MEASURES, INCLUDING:

Thermal insulation of buildings (walls, roofs, basements, and balconies)

Replacement of windows and exterior doors

Installation of photovoltaic panels for renewable energy generation

Modernisation of heating and hot water systems

Modernisation of lighting and energy management systems

Installation of ventilation and air conditioning systems

Rehabilitation of entrances, ramps, access routes, and elevators where necessary

Implementation of fire safety measures and structural reinforcement

Moldova Energy Efficiency Project is implemented by the Government of the Republic of Moldova, through the Ministry of Energy and the Consolidated Unit for the Implementation and Monitoring of Energy Projects, with financial support provided by the European Union, the European Investment Bank, and the European Bank for Reconstruction and Development. This publication was produced with the financial support of the European Union. Its content is the sole responsibility of Moldova Energy Efficiency Project.
